CS193 Eisenhower Matrix:

	Urgent	**Not Urgent**
Important	**Do - (Your MVP)** • Prompt for number of hours • Logic for workout type selection & race weeks • Output weekly plan based on choices	**Schedule - (For V2.0+)** • Stat Tracking and summaries • "Race Season" support • More schedule types (<7 days/week)
Not Important	**Delegate - (Use a library)** • Java.io for reading and writing plans • Java.util for storing plans/stats (arrays) • Java.lang.Math for calculations	**Delete - (Cut it)** • Workout suggestion logic based on past output • Workout "block" plans • Fancy GUI (Stay CLI for now)
